

Presidents Desk

Dear Parents,

I want to share my grief for the tragedy that has affected us all in the recent Earthquake and the Tsunami. I hope and pray that all the residents of Japan remain safe and wish each and every one of you a better future. As I always say "Children are the hope for the future" and we must strive to do more for them and to give them a vision and direction. I trust you will join me in ensuring that the children move forward.

Our Golden Angels have graduated and all of us shed some tears on that day. My teachers join me in wishing each and every one of them a great time ahead.

We start our school year soon with bigger plans in mind. I request your help and cooperation to make our school a leading institution.

For those new to the school, I extend a hearty welcome to Little Angels!

With best wishes,

Rani.
