

*Dear Parents,*

Hello once more.

We have finished a third of our journey for the academic year that began in April 2009. It has been quite exciting, full of learning experiences, and fun-filled. We have seen each student growing physically, intellectually, and psychologically as well. Thank you for all your support, that helps us succeed.

We had yet another batch of students joining us in April. I hope all of you now feel comfortable "at home" with Little Angels. We also enjoyed a family barbecue so that we all get to know each other better. I do believe that most of you have met and learnt about one another and have felt the 'bond' of the Little Angels 'family'.

In April, the Elementary School children went out on a camp to Okutama 'Yama-no-Furusato-Mura'. It was the very first of such camps, and it was a great success. We trekked along paths that were surrounded by rich flora and fauna. We cooked our own food, slept in tents, sang around the campfire, stargazed, and also chased a few monkeys that were eyeing our food. We also visited the Okutama dam and the students learned about water: how we get it in our houses, and the importance of water conservation.

On the 22<sup>nd</sup> of May, we set out to the Tokyo Sea-life Aquarium as our the Annual Field Trip. It was a long ride on the bus, but the students enjoyed it. The children were excited to see the main attraction, Tuna fish. I am sure you will agree that Maguro-sushi tastes so much better after our field trip!

We held our International Children's Day in June. I would like to thank all the parents for volunteering and helping with the costumes, and preparation of the students for the event. The children practiced very hard and performed elegantly. We are proud of producing students with and an international and broader world-view.

The Spring Semester ends at the gates of summer. It seems like its going to be another hot and humid summer. Please enroll in our summer programs because we have planned some interesting and exciting activities for children and adults as well. *Have a great and 'cool' summer vacation.* Looking forward to seeing all of you in September.

Little Angels is also proud to launch several exciting new programs for improving skills and capabilities among adults and advanced learners. Kindly take some time to check out our various Business School offerings and feel free to contact us if you need any further information.

Thank you once more and do remember, we cannot spell **success** without 'u'.

Nothing is Impossible!

Warm regards, **Rani**
