

Dear Parents,

Welcome to Little Angels!

The past academic year was a real joy and thrilling as we focused on overall child development and the outcomes were good. The teachers and the children enjoyed the classes and the activities.

We ended March with a graduation ceremony. The children did a great job talking about their dreams and expectations and we wish them the very best ahead.

I am certainly looking forward to the New Academic Year with several new challenges, excitement as well, with more children, teachers and the latest resources! Please check out the library and our new additions.

The Kindergartners are fun to be around and we welcome the youngest additions to our family! The other 'angels' help us to provide a great environment towards fostering good care as we all embark on yet another journey.

Our elementary school children had a fun filled year, learnt a lot and enjoyed the schooling year. This year, we have started on our third grade. In April, all the elementary children visited a camp site in Okutama and enjoyed camping, learning about nature and they also made a few souvenirs under expert guidance and thus learnt about ecological preservation, reducing waste and recycling! The last three are our basic tenets as well. Please check your mail as we communicate entirely via email and feel free to send your feedback.

So once again, we commence yet another year of activities, field trips, barbecuing, parties etc., and of course a world of fun and learning!

I once again extend a hearty welcome to all the new students here at Little Angels. I am sure that together, we will enjoy learning this year as well.

Nothing is Impossible!

Warm regards,

Rani
