

Teacher's Day: The 29th of September was teacher's day. The 2nd graders marked the day by experiencing how it feels to teach. They taught simple concepts to the kindergarten grades.

I want to be a psychologist teacher.

I want to teach in grade two and three.

I want the class to be clean, because if it is clean I can move smoothly.

I want my class students to be smart and good kids. I want everybody to know about their feelings. If they don't

knows it is dangerous when they fight, if they fight they will get hurt in their feelings.

I don't want to hurt anybody in my class. My dream is to be a psychologist.

The English Idiom Corner

(To) follow one's heart: To act according to your feelings/emotions. For example, "I couldn't decide what to do so I just followed my heart."

SPORTS DAY EDITION

Saturday's sports day was postponed due to bad weather. Hopefully, we'll see a smiling sun this Sunday. Good luck to the Water and Fire teams! ...and their parents.

Ueno Science Museum

by Nijito Kojima

On September 16th Wednesday, I went to the Ueno Science Museum with elementary students. I rode on two trains. I first watched a movie in the 360 degree theater.

It was about dinosaurs. Next I viewed dinosaur fossils. I learned that dinosaurs that have horns are dangerous. Next I learned about the solar system. I learned that the sun has 8 planets orbiting it. Next I had lunch. Then I went home by train. I feel I want to go again because I learned a lot.

Book Review: Young Orville and Wilbur Wright by Kotone Ikeda

Title: Young Orville and Wilbur Wright

Author: Andrew woods

Publisher: Scholastic 31 pages

Wilbur was born in 1867, Orville was born in 1871. They have 7 people in the family. They made bicycles and bikes too. At last they made the airplane. But it could fly a few times, So they developed it more and more. So the airplane can fly high and for a long time. I thought the people who make things widen the knowledge about the world.

Rani's birthday was on Tuesday (Oct. 6). Have you wished her?
